Antwortschreiben der American Psychological Association auf das Kondolenzschreiben des BDP zum Verlust von Albert Bandura OC, PhD.

Berufsverband Deutscher Psychologinnen und Psychologen e. V.

Dear Colleagues,

Thank you for your very kind and thoughtful letter of sympathy in response to the recent passing of Dr. Albert Bandura. His many innovative contributions to the field of psychology and social cognition, in particular, will leave their mark in areas as diverse as the impact of modeling aggression for children to efforts to prevent climate change.

I look forward to sharing your letter with Dr. Bandura's two daughters - one is a psychologist, to whom we sent a condolence letter on behalf of APA. I have no doubt that your letter will mean a lot to them as well.

Once again, thank you. Our Global Psychology Alliance and MOU partnership clearly serve many purposes.

Best,

Jennifer F. Kelly
